Introduction

Show Info

Name: 2017 China Chongqing International Machine Tool Show (CCIMT 2017)

Show dates: November 13 - 16, 2017

Show venue: Chongqing International Expo Center (CQEXPO)

Co-produced by: AMT - The Association For Manufacturing Technology

China Machine Tool and Tool Builders' Association (CMTBA)

Size of the show: 35,000 sqm

Total visitors (est.): 50,000

Exhibit Categories

Metal Cutting Machines · Metal Forming Machines · Forging and Press Machinery · Laser Machining and Fabricating Equipment · EDMs · Additive Manufacturing Technology and Equipment · Industrial Robots, FCMs & FMS, and Automation · CNC and Servo Drive Systems · Application Software · Machine Accessories and Functional Components · Cutting Tools, Tooling and Fixtures · Measuring Tools and Instruments, Inspection Equipment · Abrasive Materials and Tools, Carbide Materials and Products · Casting, Welding and Heat Treatment Equipment · Other Manufacturing Related Technologies and Equipment

Booth Space Prices:

	RAW SPACE (CONCRETE ONLY)	BOOTH PACKAGE* (SHELL)
NON-MEMBER	USD \$180/sq.m.	USD \$210/sq.m.
AMT MEMBER	USD \$150/sq.m.	USD \$180/sq.m.

*Booth Package includes walls, fascia, carpet, lights, electrical outlet, reception counter, table & chairs, wastebasket

Market Analysis

As the only inland municipality under the direct jurisdiction of the central government of China, Chongqing is among China's top 5 metropolitan centers, attracting investment from all over the world and transforming it into a commercial and industrial hub. In the past 10 years, **more than 2,000 companies have set up operations in Chongqing** – creating a huge expansion in the number of potential buyers for manufacturing technology products.

With an expanding manufacturing base of domestic companies, as well as more than 250 Fortune 500 multinationals, Chongqing has established itself as an innovation center for high technology.

Why Chongqing?

- Chongqing GDP rose 11% in 2015
- Auto production was up 15% in 2015 – reaching 3 million units produced in Chongqing
- Auto production is expected to reach 5 million units by 2020
- Largest manufacturer of laptops in the world
- Produced nearly 80 million smart phones in 2015
- Intel, Dell, Lenovo, Foxconn and more all manufacture in Chongqing
- Produced over 8.4 million motorcycles in 2015
- Annual motorcycle engine production exceeds 10 million

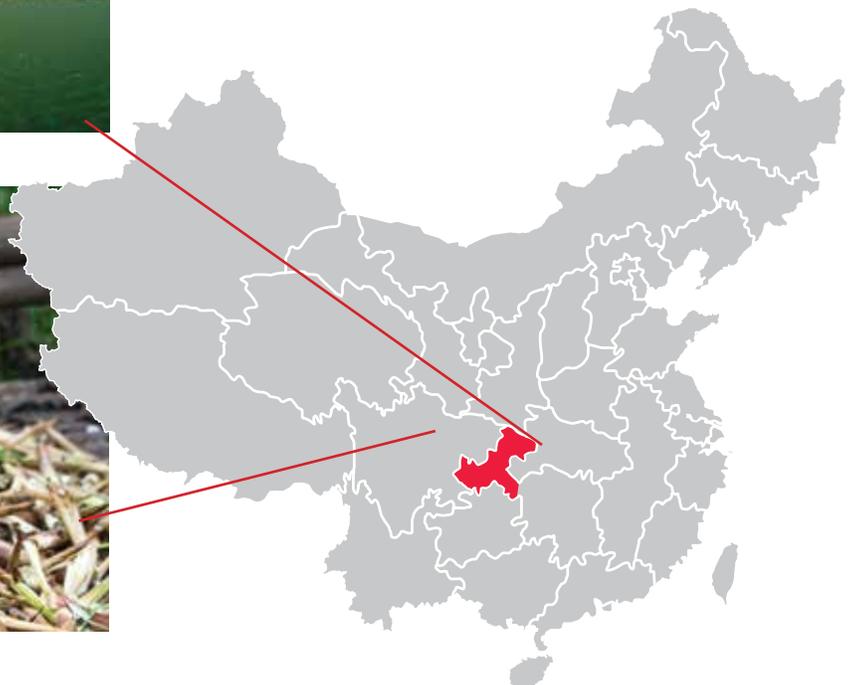

The Three Gorges of the Yangtze River

Sichuan Giant Panda Sanctuary

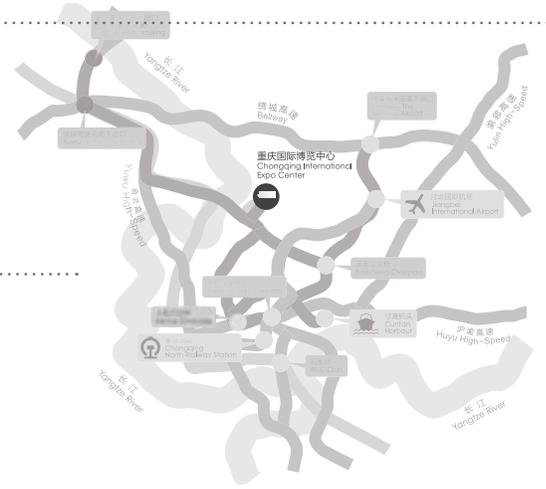

Unique Southwest China

Beyond its manufacturing, chemical, pharmaceutical, and instrument industries, Chongqing possesses a dynamic tourism industry.

CQEXPO Facility & Transportation Information

Floor map of Chongqing International Expo Center (CQEXPO)

Located at Liangjiang New District in Chongqing city, Chongqing International Expo Center (CQEXPO) is a modern intelligent conference and exhibition building and offers a wide variety of services including exhibitions, conferences and meetings, dining and catering, hotels, performances, sports games, and more. It boasts 200,000 sqm of indoor space in total. There are 16 pillar-free exhibition halls, each providing 11,500 sqm of usable area with floor loading capacity of 3.5-5 tons. The infrastructure is capable of accommodating machine tool exhibitions by providing water, electricity, air, loading area and loading doors. The building is fully covered by WIFI. CQEXPO owns a 5-star hotel and a 40,000 sqm conference center. There are a number of stores and restaurants nearby.

CQEXPO is only **8km** from Jiangbei International Airport, **11km** from the train station, and **18km** from downtown Chongqing. It is easily accessible with express roads running from east to west and from north to south. Public transportation includes light-rail trains, taxis, and buses, with light-rail train No.6 connecting directly with the city center. The new light-rail line No.10 will open in 2017 and will run from the airport to downtown via CQEXPO.

Co-producers

CHINA MACHINE TOOL AND TOOL BUILDERS' ASSOCIATION (CMTBA)

Established in 1988 and based in Beijing, China, China Machine Tool and Tool Builders' Association (CMTBA) is a national non-profit organization. CMTBA supports 27 sub-associations for different fields of products and six working committees around China, with more than 1,700 member enterprises, producing a full range of manufacturing equipment.

CMTBA is engaged in many activities and initiatives designed to promote the industry by means of acting as a bridge between the government and CMTBA members, between the end-users and manufacturers, and as one of the major international channels through which China's machine tool builders and users can be linked with their overseas counterparts. CMTBA also help overseas machine tool manufacturers and users understand China's machine tool industry, investment opportunities, and entering the Chinese market. In addition to CCIMT, CMTBA also sponsors China International Machine Tool Show (CIMT) and China CNC Machine Tool Fair (CCMT).

AMT - THE ASSOCIATION FOR MANUFACTURING TECHNOLOGY

AMT provides programs and services that help U.S. manufacturing technology providers grow, plan for the future and improve their overall position in the global market. Founded in 1902 and based out of McLean, Virginia, the association works to strengthen the industry by providing business intelligence, improving market access and taking a leadership role in driving technological research and innovation.

AMT provides global support to members through international tech centers and representative offices including two offices in China: the Shanghai Technology & Service Center and the Beijing Representative Office.

AMT owns and manages IMTS – The International Manufacturing Technology Show, which draws over 100,000 attendees and is North America's largest showcase for manufacturing technology.
